

### Professional Line (1479) Wind speed Analog Indicator

Id-No. 00.14793.235 090

Measuring range:	0...35 m/s - analog
Range of application:	temperatures -20...+60°C • reliable wind warning • adjustable, non-contact limit value monitoring
Supply voltage:	90...230 V <sub>AC</sub> • ca. 2 VA
Connectable to:	WS sensors with analog output 0...20 mA e. g. (14575) • (14576) and measuring amplifier
Dimensions/ Weight:	144 x 144 x 125 mm • 0.9 kg
Varieties:	further varieties with or without limit value monitoring as well as with other inputs on request

### On request:

#### (1475 ...) Wind Analog Indicators

Measuring range:	WD: 0...360° - analog • WS: 0...120 kn resp. 0...25 kn
Range of application:	combinations of different single indicator units

#### (8535) Digital Indicator Unit

7-segment display • standard housing DIN 43700 •  
dimensions 96 x 48 x 110 mm • connectable to sensors  
and signal conditioners with an output of 0...20 mA

#### (14856) Line Recorder (without illustration)

suitable for the recording of meteorological parameters •  
measuring transducer necessary • connectable to sensors  
and signal conditioners with an output of 0...20 mA

#### Dot Recorder (without illustration)

suitable for the recording of slowly changing  
parameters • connectable to  
sensors with an output of 0...20 mA
