

00.08140.000 000 (814) Sensor shelter for (800) and (809)

Dimensions:
Weight:

made of weatherproof, anodized aluminium • particularly suitable for the prevention of atmospheric influences such as precipitation and radiation
 Ø 170 mm • H 440 mm • for assembly pipe Ø 22 mm
 1.7 kg

00.08141.200 000 (814.2) Sensor shelter e. g. for (8092 MIL)

Dimensions:
Weight:

suitable for sensors with outer Ø < 25 mm
 ■ 16 lamellas for good ventilation
 ■ weatherproof, white plastics • particularly suitable for the prevention of atmospheric influences such as precipitation and radiation
 Ø 120 mm • H 310 mm • with tension ring and special fixing
 0.9 kg

00.08141.300 000 (814.3) Sensor shelter e. g. for (8092) and (8281) + adapter

Dimensions:
Weight:

suitable for sensors with outer Ø < 25 mm
 ■ 12 lamellas for good ventilation
 ■ weatherproof, white plastics • particularly suitable for the prevention of atmospheric influences such as precipitation and radiation
 Ø 120 mm • H 160 mm • with sleeve for plug connection and special fixing element
 0.6 kg

00.10960.000 000 (1096) Large instrument shelter according to DIN 58656

Dimensions:
Weight:

suitable for different measuring instruments and sensors for meteorological outdoor measurements
 ■ lamellar walls and doors for good ventilation and as protection against direct and reflected sunshine radiation
 ■ shelter inside and outside white varnished as optimal thermal protection
 ■ lockable double door
 ■ three-steps platform made of hot-dip galvanized steel (no figure)
 ■ wooden stage, can be taken apart (no figure)
 indoor measuring chamber 450 x 700 x 400 mm •
 total size (shelter plus stage) 2600 x 1100 x 785 mm
 total 85 kg for shelter, stage and platform

00.10990.000 000 (1099) Small instrument shelter

Dimensions:
Weight:

particularly suitable for Thermo-Hygrograph or Meteorograph
 ■ lamellar walls and doors for good ventilation and as protection against direct and reflected sunshine radiation
 ■ shelter inside and outside white varnished for optimal thermal protection
 ■ lockable single-leaf door
 ■ 1 bracket included in delivery
 indoor measuring chamber 420 x 340 x 160 mm
 total size 550 x 600 x 460 mm
 total 16 kg for shelter and bracket
